

REMOTE CONTROL

TSA+

simu-Hz
Radio System

ELEGANT DESIGN, VISIBLE QUALITY!

- **A multi-purpose remote control:** Associated with the motors and control boxes in the SIMU range, the TSA+ remote control enables you to control garage doors, store shutters and the doors of industrial buildings.
- **An understated design and high-quality finish:** SIMU wanted to create an understated and elegant remote control with timeless features. Its metal ring with a chrome finish endows it with quality and robustness.
- **Highly practical, it comes with its own attachment holder:** As standard, TSA+ is delivered with a holder made from a material that is both flexible and unbreakable which means it can be clipped onto a car's sun visor or attached to a garage wall.
- **No more accidentally pressing buttons!** The shape and sensitivity of the touch buttons have been designed to avoid accidentally being pressed when the remote control is in your pocket.

TSA+ REMOTE CONTROL

RECOMMENDED COMBINATIONS:

...for sectional, up-and-over, sliding garage doors:

...for rolling garage doors:

...for store shutters and doors of industrial buildings:
