

SWITCH MEMORY AC

FOR ROLLER SHUTTERS

THE SMART WIRED REVERSING SWITCH WITH 24-HOUR CYCLE REPETITION FUNCTION

- **Comfort and security:** no more concerns about opening or closing the roller shutters. Thanks to the 24-hour cycle repetition function, it will automatically open and close each day at the same time.
- **Easy to use,** simply press and hold the up or down button, at the desired time to record a command which will be repeated every 24 hours.
- **Automatic mode can be disabled at any time,** by pressing the stop button (black button) for 1 second. A light shows the activated function mode (Led OFF: manual mode / Led ON: automatic mode).
- **Understated design:** Memory AC fits in with any indoor style.

ASSEMBLY

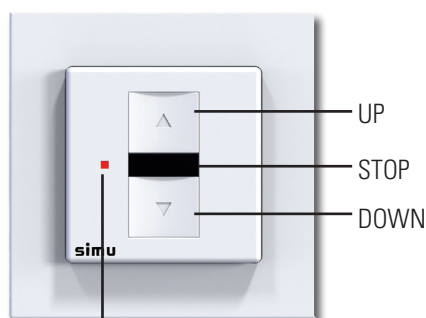

EASY INSTALLATION IN 3 STEPS:

- 1 Fasten the grating to the recessed box (Screws included)
- 2 Clip on the frame
- 3 Connect then attach the wired control module

Surface mounting is also possible. See the surface mounted box in the "compatible accessories" section mentioned below.

* Module compatible with 50x50 mm electrical equipments on the market
